Greeting from Aarush Memorial Trust

On this momentous occasion of 5th Foundation Day of Aarush Memorial Trust, we come together to celebrate our journey, reflect on our achievements, and look forward to even greater milestones ahead. It is a day to solemnly remind ourselves the values and goals that inspired the formation of Aarush Memorial Trust. Over the past five years we have come together with a shared vision of compassion, service and hope to create a positive impact on lives of those in need.

Our mission to provide financial aid to the economically disadvantaged pediatric cancer patients and extend our support to their families during times of hardship was acknowledged by prestigious Institutions/hospitals throughout the Country.

Aarush Memorial Trust also had to face the wrath of the nature just after its formation on 02.12.2019. However, during the tenure under review we had contributed Rs.14.16 lacs towards the treatment of more than 100 children and Rs.6.70 lacs towards several charitable activities. This all had been possible because of the trust and confidence placed in us by our benefactors which have been instrumental in driving our mission forward.

In line with our mission, we have initiated our dream Project “Home Away from Home”, through which we strive to provide a safe haven to the families, who are facing the toughest battle of their lives and struggling with the financial and emotional burden to save their child. The Trust has already made an expenditure of Rs.35.45 lacs towards the construction and are hopeful to inaugurate by our next foundation day. We will ensure a hygienic and comfortable environment for the families so that they can focus on their child’s treatment free from the concern of finding accommodation.

“Nourishing Knowledge”, a project launched during our 2nd Foundation Day, for 20 children from the far away district of Purulia has received a tremendous response from all segments of the society. The education of all these children is being sponsored and they will be advancing to Class-VIII during the upcoming year. We are satisfied by their performance and quite hopeful that they will be the 1st Graduate from their family.

We extend our heartfelt gratitude to each of you for being a part of our journey. We would like to take this opportunity to express our heartfelt gratitude to all our members who are generously offering their time and expertise through voluntary service to achieve the Mission, Vision and Goals of Aarush Memorial Trust.

We recognize the challenges we face, but with your continued support and blessings, we are confident that we will overcome them and progress on the path to success.

TOGETHER, WE WILL BUILD A BRIGHTER FUTURE FOR THOSE IN NEED

Kolkata: A distraught couple who lost their 15-year-old son to cancer came forward to form a charitable trust and set a Home-Away From Home in New Town, which will provide shelter to the financially weaker families of paediatric cancer patients.

The proposed structure will be a two-storied building that will house at least 10

PROJECT- NOURISHING KNOWLEDGE

One of the cornerstones of Aarush Memorial Trust's success has been its steadfast commitment to education. Our “**Nourishing Knowledge**” initiative is an educational-cum-nutritional project for 20 students studying at Balitora Ramkrishna Sishu Vidyapith, a remote village located in the Santuri block of Purulia district, West Bengal.

The project was launched on the 2nd foundation day of the organization and is dedicated to the educational welfare of under privileged children, ensuring, they receive the support and resources they need to thrive. The “Nourishing Knowledge” project is not only fostering academic success but also helping build a brighter, more hopeful future for these children. Our unwavering goal is to create an environment where they can continue to learn, grow, and ultimately reach their fullest potential.

As we celebrate five years of our journey, we are proud to share that all of these students will be progressing to class VIII without a single dropout. This achievement is a testament to the relentless efforts of the teachers and our team, who work tirelessly to ensure every child receives the best possible education.

To sustain and expand this important work, we humbly request your financial support. Your generous contributions will help us continue providing these children with the education and nutrition they need to thrive and succeed.

TWO PILLARS OF PROGRESS: EDUCATION & NUTRITION

MISSION, VISION & GOAL OF AARUSH MEMORIAL TRUST

MISSION

- To constantly work towards providing guidance and moral support to the families of children suffering from leukaemia.
- To help underprivileged children who are suffering from leukaemia and struggling to get the necessary treatment due to financial limitations.
- To pay attention to the needy and deprived children irrespective of their community, caste, creed, religion or gender.

VISION

Aarush Memorial Trust aims to be a trustworthy organisation that helps fight leukaemia and become a reliable name for patients and their family members.

GOAL

Aarush Memorial Trust supports as many children as possible belonging to the weaker sections of the society.

A VISION FOR THE FUTURE

AARUSH MEMORIAL TRUST is constantly renovating its ideas to focus on expanding its reach, building partnerships, leveraging technology and ensuring sustainable growth so that we can contribute more towards the society. We are also committed to support ICH, Kolkata in the construction of a dedicated ward in their upcoming building, providing a specialized space for paediatric cancer patients. The way forward is not just about scaling services, but about creating sustainable, patient-centred solutions that address the full spectrum of needs—from medical care to emotional support to lifelong survivorship.

Our strategic direction to maximize our impact:

1. Financial Assistance & Sponsorship Programs

- **Fund Treatment Costs:** Partner with Government/ Corporate/NGO's to sponsor the medical treatment, including chemotherapy, radiation, surgeries, and other necessary care for families who cannot afford it.
- **Emergency Fund:** Create a special fund for urgent medical expenses or unanticipated costs that arise during treatment.
- **Insurance Support:** Assist families in navigating insurance and health coverage options, ensuring they get maximum benefits from available schemes.

2. Psychosocial Support and Holistic Care

- **Counselling Services:** Provide emotional and psychological support to the children, their families and caregivers. This can include therapy for anxiety, depression, and coping with the trauma of cancer treatment.
- **Integrative Therapies:** Support the inclusion of complementary therapies such as acupuncture, yoga, meditation, and nutrition counselling to manage side effects and improve the quality of life.
- **Survivor Programs:** Expand programs that provide long-term care for paediatric cancer survivors, addressing physical rehabilitation, psychological care, academic support, and life skills training.
- **Transitioning to Adulthood:** Develop specific programs to help paediatric cancer survivors transition to adulthood, addressing issues like fertility preservation, career counselling, and adult health screenings.
- **Support Groups:** Organize peer support groups where families can share their experiences, find solidarity, and reduce feelings of isolation.

3. Celebrating Milestones and Success Stories

- **Highlight Survivor Stories:** Share success stories from paediatric cancer survivors to inspire others and build public trust. Showcasing personal journeys can also bring attention to the critical importance of the Trust work.
- **Annual Reports and Transparency:** Publish regular reports on the Trust activities, outcomes, and financials to build trust with donors, partners and the general public.

By adopting these strategies, WE can build a strong foundation for long-term growth, expand its impact on the lives of paediatric cancer patients and drive meaningful change in healthcare and community support.
